CL016. CUSCode

CL008. CountryCodesFullList

Details:

The list of codes to identify the countries, based on the ISO3166-1 for NCTS, and based on COM Regulation No.1106/2012 implementing Regulation (EC) No 471/2009 for the other trans-European systems (incl. ECS, ICS, EOS, COPIS).

Format:

a2

Type:

Business

CL009. CountryCodesCommonTransit

Details:

The list of codes to identify the countries (territories) involved in NCTS. It consists of the country codes defined in CL008 for the countries with a country regime different from 'OTH' (i.e. country regime equal to 'EEC' or 'TOC').

Format:

a2

Type:

Business

CL010. CountryCodesCommunity

Details:

The list of codes to identify the countries (territories) where the EU Customs legislation is applicable (per customs IT system). It consists of the country codes defined in CL008 for the countries with a country regime equal to 'EEC'. Note: the list of codes are different for NCTS and AES, taking into account the differences that exist in CL008.

Format:

a2

Type:

Business

CL011. CountryRegime

Details:

The list of codes to specify the type of regime applicable to each country (for the countries involved in the trans-European systems and the others).

Format:

an3

Type:

Business

CL012. LanguageCodes

Details:

The list of 2-letter codes to represent most of the languages of the world, based on ISO 639-1.

Format:

a2

Type:

Business

CL015. GeoInfoCodes

Details:

The list of code specifying the Customs Office's location.

Format:

an..6

Type:

Business

CL016. CUSCode

CL027. Flag

Details:

The CUS codes uniquely identify the chemicals and are maintained in the ECICS (European Customs Inventory of Chemical Substances) database. When a CUS code is declared in the customs declaration, the declarant receives benefits stipulated in UCC DA/IA. (Filtered from CL216)

Format:

an9,an..8

Type:

Business

CL017. KindOfPackages

Details:

The list of codes defined by UNECE to represent the package type names used in interantional trade (Recommendation N°21 - Revision 11 - Issued in 2020).

Format:

an..3

Type:

Business

CL019. IncidentCode

Details:

The list of codes to specify the incident that impacts the goods (for example in case of incident registered by the Customs Officer).

Format:

n1

Type:

Business

CL020. TrafficType

Details:

The list of codes to specify the type of traffic dealt with in the Customs Office. This entity is used for the Customs Office List.

Format:

an..3

Type:

Business

CL024. ModificationType

Details:

The list of code specifying the operation applied when an action is executed.

Format:

a1

Type:

Technical

CL026. MonthOfYear

Details:

The list of codes to specify the month of the year.

Format:

an2

Type:

Technical

CL027. Flag

Details:

The list of values for the flag (0/1).

Format:

CL053. PrefixSuffixLevel

n1

Type:

Technical

CL029. ResponseCode

Details:

The list of codes to specify the NCTS inquiry procedure response.

Format:

n..2

Type:

Business

CL030. XmlErrorCodes

Details:

The list of codes to define the XML error code reported in the exception messages.

Format:

n2

Type:

Technical

CL038. QualifierOfIdentificationIncident

Details:

Identifier to determine how the location of the incident is defined (Filtered subset of CL326- 'QualifierOfTheIdentification')

Format:

a1

Type:

Business

CL042. DeclarationTypeAdditional

Details:

Codes to express Additional Declaration type as defined in UCC IA Title II - data element 1/2. Additional Declaration type.

Format:

a1

Type:

Business

CL048. CurrencyCodes

Details:

The list of codes to identify the currency used, with the exchange rate against EURO, as published yearly in the Official Journal.

Format:

an3

Type:

Business

CL050. GuaranteeMonitoringCodes

Details:

The list of codes to specify the monitoring type of a guarantee (e.g. in NCTS).

Format:

n1

Type:

Business

CL053. PrefixSuffixLevel

CL076. GuaranteeTypeWithReference

Details:

The list of code specifying if the information on the Customs Office is considered as suffix or prefix.

Format:

an1

Type:

Technical

CL054. QueryIdentifier

Details:

The list of code specifying the identifier of a query on a guarantee.

Format:

n1

Type:

Business

CL056. Role

Details:

The list of roles that a Customs Office located in EU can play. Some of the roles can also be assigned to a Customs Office located outside EU (e.g. in the context of NCTS). Also used by DDS2-COL (europa.eu).

Format:

an..3

Type:

Business

CL060. MessageTypes

Details:

The list of codes used to identify the type of messages exchanged on the Common Domain and on the External Domain (e.g. CD001B, CD302A, CC515C, CD801A).

Format:

an..6

Type:

Technical

CL067. SpecificNotesCode

Details:

The list of code related to the specific notes that can be applied on a Customs Office. This code list is managed by DG TAXUD and used by the National teams when maintaining the Customs Office List.

Format:

an..6

Type:

Business

CL070. CountryCodesCustomsOfficeLists

Details:

This Codelist includes the countries who are maintaining their Customs Offices in CS/RD2. It lists the country codes used as the first two characters of the Customs Office Reference Number.

Format:

a2

Type:

Business

CL076. GuaranteeTypeWithReference

Details:

A subset of the CL251, used in Rules & Condition, to list the guarantee types for which a guarantee reference can be used.

Format:

an1

Type:

Business

CL079. SystemUnavailabilityType

Details:

The list of code specifying the type of unavailability of an application or system.

Format:

a1

Type:

Technical

CL094. RepresentativeStatusCode

Details:

Used to designate the status of the representative.

Format:

n1

Type:

Business

CL100. ResultIndicator

Details:

The list of values that indicate the results communicated from AES to NCTS after the initial cross-check of the export MRN(s) referenced in the transit declaration (in case of Export followed by Transit (XFT)).

Format:

an2

Type:

Business

CL101. UnDangerousGoodsCode

Details:

The list of codes to specify the dangerous goods. Codes from the UNDG (United Nations Dangerous Goods) list (ADR) produced by UNECE.

Format:

an4

Type:

Business

CL105. DayInTheWeek

Details:

The list of code specifying the day in the week.

Format:

n1

Type:

Technical

CL107. RiskAnalysisIndicator

Details:

The list of code specifying if the Risk Analysis was performed at Customs Office of Departure or Customs Office of Export, and in case it was performed, if a risk should be handled by another Customs Office.

Format:

a1

Type:

Business

CL143. CountryHolidays

CL112. CountryCodesCTC

Details:

The list of country codes of the Contracting Parties to the Convention on Common Transit maintaining their own Customs Offices in CS/RD2. (i.e. not including AD SM)

Format:

a2

Type:

Business

CL116. TransportChargesMethodOfPayment

Details:

The list of code specifying the payment method for transport charges.

Format:

a1

Type:

Business

CL118. RequestedInformationCode

Details:

The list of codes specifying the type of information requested (e.g. in the context of an enquiry).

Format:

n1

Type:

Business

CL119. InformationCode

Details:

The list of codes specifying the response to the information requested (e.g. in the context of an enquiry) – See also CL118.

Format:

n2

Type:

Business

CL141. CustomsOffices

Details:

The full list of Customs Offices and Customs Authorities active in the EU and in the partner countries. The content of this code list is maintained by each National Administration, under their sole responsibility. This CL141 is part of the Customs Office List (COL) published on europa.eu (see https://ec.europa.eu/taxation_customs/dds2/col/).

Format:

an8

Type:

Business

CL142. CountryRegion

Details:

The list of the regions per country. The content of this code list is maintained by each National Administration, under their sole responsibility. This CL142 is part of the Customs Office List (COL) published on europa.eu (see https://ec.europa.eu/taxation_customs/dds2/col/).

Format:

a2,an..3

Type:

Business

CL143. CountryHolidays

CL154. StateAtOfficeOfDestination

Details:

The list of the public holidays per country. The content of this code list is maintained by each National Administration, under their sole responsibility. This CL143 is part of the Customs Office List (COL) published on europa.eu (see https://ec.europa.eu/taxation_customs/dds2/col/).

Format:

a2

Type:

Business

CL144. UnLocode

Details:

The list of the UN/LOCODE codes from the countries having Customs Offices maintained in CL141. For the full list of UN/LOCODE, please consult the CL244 (UnLocodeExtended) with all locations in 249 countries and installations in international waters.

Format:

a2,a3

Type:

Business

CL146. CountryGuaranteeNotValid

Details:

The list of countries where the guarantee could be invalid. It covers the EU as a whole, each Contacting Party to the Convention on Common Transit, Andorra and San Marino. It is based on CL071, plus 'EU' (= all the EU Member States), plus 'CT' (= all countries listed in CL071).

Format:

a2

Type:

Business

CL147. CountryCustomsSecurityAgreementArea

Details:

The list of country codes of the contracting parties to an agreement for the simplification of inspections and formalities in respect of the carriage of goods and on customs security measures.

Format:

a2

Type:

Business

CL152. HScode

Details:

All the Harmonised system sub-heading codes as defined by World Bank. HS codes are updated every 5 years, the next updates are scheduled for January 2022, Jan 2027, ... See also <https://unstats.un.org/unsd/tradekb/Knowledgebase/Harmonized-Commodity-Description-and-Coding-Systems-HS>

Format:

an6

Type:

Business

CL153. StateAtOfficeOfDeparture

Details:

All the possible states of an MRN at the Office of Departure.

Format:

an3

Type:

Business

CL154. StateAtOfficeOfDestination

CL164. ReleaseNotification

Details:

The list of codes to specify the state of an MRN at the Office of Destination.

Format:

an3

Type:

Business

CL155. StateAtOfficeOfTransit

Details:

The list of codes to specify the state of an MRN at the Office of Transit.

Format:

an3

Type:

Business

CL156. RoleRequester

Details:

The list of codes to specify the Roles that can be used as Requester of Guarantee Information.

Format:

n1

Type:

Business

CL158. XFTCommunicationPurpose

Details:

The list of codes to specify the nature of the communication sent from NCTS to AES (in case of Export followed by Transit (XFT)).

Format:

n1

Type:

Business

CL162. DiscrepancyResolution

Details:

The list of codes to specify the response by the office of departure to the office of destination, regarding the major discrepancies reported in the message IE018.

Format:

n..2

Type:

Business

CL163. ReleaseType

Details:

The list of codes to specify the release of goods by the office of destination.

Format:

n1

Type:

Business

CL164. ReleaseNotification

Details:

The list of codes to specify the notification sent by a customs office to a trader when goods are released or not released.

Format:

n1

Type:

CL173. CustomsOfficeTransit

Business

CL165. Nationality

Details:

The list of codes to specify the nationality (e.g. of a means of transport).

Format:

a2

Type:

Business

CL166. TransitProcedureCategory

Details:

The list of codes to specify the transit procedure.

Format:

n1

Type:

Business

CL168. FunctionalityBusiness

Details:

The list of business functionalities that can be impacted in operations when a national application is temporary unavailable, or not yet completely operational. (Business code list)

Format:

a1

Type:

Business

CL169. CustomsSystems

Details:

The list of codes used to define the applicable Customs System. (Business code list)

Format:

n..2

Type:

Business

CL171. CustomsOfficeDeparture

Details:

All the Customs Offices that have the role 'Customs Office of Departure' (DEP)

Format:

an8

Type:

Business

CL172. CustomsOfficeDestination

Details:

All the Customs Offices that have the role 'Customs Office of Destination' (DES)

Format:

an8

Type:

Business

CL173. CustomsOfficeTransit

Details:

All the Customs Offices that have the role 'Customs Office of Transit' (TRA)

Format:

an8

Type:

Business

CL174. CustomsOfficeGuarantee

Details:

All the Customs Offices that have the role 'Customs Office of Guarantee' (GUA)

Format:

an8

Type:

Business

CL175. CustomsOfficeTransitExit

Details:

All the Customs Offices located in the Security Area defined by CL147 that have the role 'Customs Office of Exit for Transit' (TXT).

Format:

an8

Type:

Business

CL176. CustomsOfficeEnquiry

Details:

All the Customs Offices that have the role 'Customs Office of Enquiry' (ENQ)

Format:

an8

Type:

Business

CL177. CustomsOfficeRecovery

Details:

All the Customs Offices that have the role 'Customs Office of Recovery' (REC)

Format:

an8

Type:

Business

CL178. PreviousDocumentUnionGoods

Details:

Previous administrative reference types to be sent across the Common Domain for Union Goods under Transit procedure, with Office of Departure located in CTC country.

Format:

an4

Type:

Business

CL179. CustomsOfficeEnquiryOrRecovery

Details:

All the Customs Offices that have the role 'Customs Office of Enquiry' (ENQ) or 'Customs Office of Recovery' (REC).

Format:

an8

Type:

Business

CL187. GuaranteeTypeWithReferenceCredited

CL180. FunctionalErrorCodesIeCA

Details:

The list of codes to specify the functional error(s) detected while verifying a message.

Format:

n2

Type:

Business

CL181. KindOfPackagesBulk

Details:

The list of codes to specify the kind of packaging considered as 'Bulk'. This entity is a subset of CL017.

Format:

an..3

Type:

Business

CL182. KindOfPackagesUnpacked

Details:

The list of codes to specify the kind of packaging considered as 'Unpacked'. This entity is a filtered subset of CL017.

Format:

an..3

Type:

Business

CL183. UnavailabilityExplanation

Details:

The list of codes to justify an unavailability reported in CS/MIS by the National Service Desks.

Format:

an2

Type:

Business

CL184. MovementQueryRejectionReason

Details:

The list of code(s) to specify why a request for movement data is responded negatively.

Format:

n..2

Type:

Business

CL186. StateAtOfficeOfExitForTransit

Details:

The list of codes to specify the possible states of an MRN at the Office of Exit for Transit.

Format:

an3

Type:

Business

CL187. GuaranteeTypeWithReferenceCredited

Details:

A subset of the CL251, to list the guarantee types for which a guarantee reference can be used for 'Credit Reference Amount'.

Format:

CL194. CustomsOfficeExit

an1

Type:

Business

CL188. TypeOfTransitDeclarationNonTIR

Details:

The list of codes to specify the type of transit declaration that can be exchanged between the Contracting Parties, with an Office of Transit defined or not (Based on CL231 - DeclarationType).

Format:

an..5

Type:

Business

CL189. TypeOfDeclarationTIR

Details:

The list of codes to specify the type of the transit declaration that can be sent by a Member State MS to European Commission (DG TAXUD), for processing and forwarding to a third country via the SPEED2ng platform. (Based on CL231).

Format:

an..5

Type:

Business

CL190. CountryAddressPostcodeBased

Details:

The list of the codes of the countries where the letter 'T' can be used as 'LOCATION OF GOODS / Qualifier of identification'. In those countries, an address can be given by the 'Postcode' only, or the 'Postcode + House number'. (For AES, only the countries with regime 'EEC' can be included in this code list. For NCTS-P5, only the countries with regime 'EEC' or 'TOC' can be included in this code list).

Format:

a2

Type:

Business

CL191. ModificationTypeNoDelete

Details:

The list of codes to specify the possible actions to be performed when processing data: - 'CREATE' when NEW data are sent/received. - 'UPDATE' when existing data are replaced by the new one sent/received.

Format:

a1

Type:

Business

CL192. LanguageByCustoms

Details:

The list of codes to specify the language(s) that can be used by the economic operators interacting with customs. It can be the list of Official Languages of the country or a more extended list if the National Customs Administration authorizes the economic operators to select one other language. Each National CSRD2 team is responsible for the accuracy of the data.

Format:

a2,a2

Type:

Business

CL194. CustomsOfficeExit

Details:

All the Customs Offices that have the role 'Customs Office of Exit' (EXT) or the role 'Customs Office of Exit Inland' (EIN).

Format:

an8

CL212. GuaranteeInvalidityReason

Type:

Business

CL195. ControlResultCodeDepartureSimplifiedExcluded

Details:

The list of control result codes that can be used by the Office of Departure for a declaration of type TIR or for a declaration without simplified procedure (no Authorised Consignor involved).

Format:

an2

Type:

Business

CL196. ControlResultCodeDeparture

Details:

The list of control result codes that can be used by the Office of Departure for a declaration with simplified procedure (Authorised Consignor involved).

Format:

an2

Type:

Business

CL197. ControlResultCodeDestination

Details:

All the control result codes that can be used by the Office of Destination.

Format:

an2

Type:

Business

CL198. CountryAddressPostcodeOnly

Details:

The list of the codes of the countries where the letter 'T' can be used as 'LOCATION OF GOODS / Qualifier of identification'. In those countries, an address can be given by the 'Postcode' only. (For AES, only the countries with regime 'EEC' can be included in this code list. For NCTS-P5, only the countries with regime 'EEC' or 'TOC' can be included in this code list.).

Format:

a2

Type:

Business

CL199. CountryCodesWithAddress

Details:

The list of country codes to be used when validating an address. Includes codes that shall be used for Common Domain messages, only during the Transitional Period for ECS/AES and NCTS P4/P5. (Based on CL008) – See also CL248.

Format:

a2

Type:

Business

CL211. NoReleaseMotivation

Details:

The list of codes to specify the reason to not release goods e.g. at the Office of Departure (NCTS).

Format:

an2

Type:

Business

CL221. AarRejectionReason

CL212. GuaranteeInvalidityReason

Details:

The list of codes to specify why a guarantee is invalid.

Format:

an3

Type:

Business

CL213. SupportingDocumentType

Details:

The list of code(s) to specify the supporting documents, based on TARIC codes.

Format:

an4

Type:

Business

CL214. PreviousDocumentType

Details:

The list of code(s) to specify the previous documents, based on TARIC codes.

Format:

an4

Type:

Business

CL217. DeclarationTypeSecurity

Details:

The list of codes to specify the type of Safety & Security data included in the declaration (e.g. the EXS data included in a transit declaration).

Format:

n1

Type:

Business

CL218. TransportModeCode

Details:

The list of codes to specify the mode of transport, including those applicable in the Convention on a common transit procedure, that can be used in messages exchanged on the Common Domain.

Format:

n1

Type:

Business

CL219. TypeOfIdentificationofMeansOfTransportActive

Details:

The list of codes to specify the type of the means of transport that is active (e.g. the truck not the trailer, the train not the wagon).

Format:

n2

Type:

Business

CL221. AarRejectionReason

Details:

The list of codes used to specify the reason to reject the message AAR (NCTS).

CL228. PreviousDocumentExportType

Format:

n..2

Type:

Business

Business

CL244. UnLocodeExtended

Details:

UN/LOCODE includes over 103,034 locations in 249 countries and installations in international waters. It is used by most major shipping companies, by freight forwarders and in the manufacturing industry around the world. It is also applied by national governments and in trade related activities, such as statistics where it is used by the European Union, by the UPU for certain postal services, etc The full text of the formal basis for UN/LOCODE (UNECE Recommendation No. 16) can be consulted at https://service.unece.org/trade/locode/rec16_rev3_ecetrd227.pdf. The cut-off dates of UN/LOCODE releases are 31 March and 30 September. This version: UN/LOCODE by Country version 2019-1. Does not include the codes with status 'Request under consideration' or 'Request rejected'.
